## INTRODUCTION

Just 6 kilometres East of Sydney's CBD, the City of Randwick, also known as the 'Sports Coast' is home to some 29 kms of coastline, 10 beaches and bays and many major recreation facilities.

Aboriginal history of the area dates back tens of thousands of years. The first fleet of settlers from Britain under the command of Captain Arthur Philip landed first in Botany Bay before moving to Sydney Cove in Port Jackson which was deemed a more suitable location to establish the colony.

Named after a town in Gloucestershire, England, Randwick is one of the oldest local government areas in Australia. Proclaimed as a Municipality in February 1859, and as a City in 1990 Randwick has a rich history and great natural beauty.

Randwick City is one of the most visited tourist areas outside central Sydney, attracting some 13 million visits each year. The City is home to the Coastal Walkway, Randwick Racecourse, Coogee and Maroubra Beaches, Botany Bay National Park, Centennial Park, several top class golf courses and major institutions including the University of New South Wales and the Prince of Wales Hospitals.

The city's generous coastline and open spaces provide a habitat for over 500 species of indigenous plants and 250 species of native animals as well as providing opportunities for relaxation and recreation.

Randwick City is a large city, covering an area of 37.4 square kilometers and includes the following suburbs:

Chifley, Clovelly, Coogee, Kensington, Kingsford, La Perouse, Little Bay, Malabar, Maroubra, Matraville, Phillip Bay, Randwick, South Coogee and The Spot.

**Randwick has a population of over 121,000. The population is culturally diverse with considerable Aboriginal, Chinese, Greek and Indonesian communities. This beautiful coastal setting hosts a wide range of sports and outdoors activities.**
